Washington, October 19 - The annual report of General Superintendent Thompson, of the Railway Mail Service, was submitted to-day to the Second Assistant Postmaster-General. On June 30th, 1882, there was in operation 769 railway postoffices. The railway postoffices were conducted in 342 whole cars, and 1.462 apartments in cars, at a total of 1,844 cars and apartments, and were run over 87,865 miles of railroad, making 75,741,438 miles of annual service. There were employed upon these lines 3,122 railway postal clerks, in addition to which 162 clerks were detailed as "local agents," and 286 were detailed as chief clerks and for other clerical duty. In connection with the service, as officers of the general and division superintendent and other prominent points when needed were employed upon steambonts, making a total of 3,570 postal clerks in the service, with salaries aggrenual salary to each of \$996.68.
